**Exam** : **000-771**

**Title** : IBM Tivoli Provisioning  
Mgrw/Orchestration V3.1  
Implement

**Version** : DEMO

**1.Which executable is used for a Unix/Linux server to generate the appropriate SSH key for the IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator Server?**

- A.keygen
- B.keyadd.sh
- C.ssh-keygen
- D.ssh-keyadd

**Correct:C**

**2.The IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator server has been up and running for a long time and suddenly workflow deployments fail. The administrator suspects a down level version of MQ is installed. Which command verifies this?**

- A.mqdsp
- B.mqver
- C.mqlevel
- D.amqvget

**Correct:B**

**3.When creating a customer in the user interface which field is a required entry?**

- A.The application name
- B.The name of the customer
- C.The name of the associated Logical Device Operation
- D.Assignment of the dedicated server for the customer

**Correct:B**

**4.What is required to create a new user in the IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator V3.1 user interface?**

- A.e-mail address
- B.superuser designation
- C.default access group
- D.a pre-existing system user account

**Correct:C**

**5.How is the shared property interpreted for a resource allocation request in a virtual server template?**

- A.The resource can be used by multiple virtual servers and is decremented on the host platform.
- B.The resource cannot be used by multiple virtual servers but is available to multiple host platforms.
- C.The resource can be used by multiple virtual servers and is not decremented on the host platform.
- D.The resource can be used by multiple host platforms and is only decremented on a single host platform.

**Correct:C**

**6.Which log file contains information about starting IBM Tivoli Provisioning Manager?**

- A.\$WAS\_LOGS/start.log
- B.\$TIO\_LOGS/tio\_start.log
- C.\$WAS\_HOME/logs/tcear.log
- D.\$TIO\_HOME/logs/tio\_start.log

**Correct:B**

**7.Viewing Server Utilization statistics in the user interface requires which server variable to be defined?**

- A.system.driver

- B.snmp.device.filter
- C.server-utilization
- D.cpu-utilization.device

**Correct:D**

**8.What is the purpose of a Fibre Channel switch?**

- A.It allows the allocation of storage to Clients.
- B.It recovers lost data in the event of a failure.
- C.It connects clusters to the storage area network (SAN) fabric.
- D.It allows the administrator to manage ports and connect storage subsystems to the storage area network (SAN) fabric.

**Correct:D**

**9.An administrator successfully adds server XYZ to an application tier, but notices a previous attempt to add server ABC to the same application tier failed. Where can the administrator look to determine why the workflow failed for server ABC?**

- A.\$TIO\_LOGS/de/output.log
- B.\$WAS\_HOME/logs/server1/Deployments.log
- C.In the Deployment Requests section of the user interface.
- D.The history for server ABC was overwritten when server XYZ was added to the application tier.

**Correct:C**

**10.How are Data Center Model (DCM) objects imported?**

- A.by using the XML import tool from the command line interface
- B.by invoking the XML.Import logical device operation from the Web interface
- C.by invoking the XML import tool from the Inventory view in the user interface
- D.It is not possible to import DCM objects after installation of the IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator.

**Correct:A**

**11.Which two actions are required to allocate a virtual server from a host platform? (Choose two.)**

- A.Create a virtual server template.
- B.Setup a virtual resource pool to group virtual servers.
- C.Associate the host platform server with a boot server.
- D.Define hardware resources on the host platform available to the virtual server.
- E.Mark the host platform as managed by IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator.

**Correct:A D**

**12.What needs to be configured for IBM Tivoli Provisioning Manager (ITPM)/IBM Tivoli Intelligent Orchestrator (ITIO) reporting to work?**

- A.Crystal Reports
- B.Tivoli Data Warehouse
- C.IBM DB2 Data Warehouse
- D.Functionality is preconfigured in ITPM/ITIO

**Correct:D**

**13.How is a device driver associated with a boot server?**

- A.It is not possible to associate a device driver to a boot server.
- B.The SetDeviceDriver logical device operation is invoked from the user interface.

- C.The device driver on the Workflows tab of the boot server in the user interface is specified.
- D.The device driver in the Add Boot Server dialog is specified when creating the boot server in the user interface.

**Correct:C**

**14.Once all prerequisites are installed and when installing IBM Tivoli Provisioning Manager/ IBM Tivoli Intelligent Orchestrator V3.1 on Windows, which two installation parameters are required? (Choose two).**

- A.DB2 instance owner
- B.LDAP server install location
- C.ITPM administrator user name
- D.LDAP administrator account information
- E.WebSphere Application Server administrator account information

**Correct:A D**

**15.Which attribute of a subscription can users modify when the service is already provisioned?**

- A.service application
- B.end time of the service
- C.start time of the service
- D.dedicated service servers

**Correct:B**

**16.Which two statements are true for the user ID tioldap? (Choose two.)**

- A.This account must be granted tree ownership.
- B.It is used by IBM WebSphere as the administrator account.
- C.It is used by WebSphere to connect to the IBM Tivoli Directory Server.
- D.It is used to log into the IBM Tivoli Provisioning Manager/Tivoli Intelligent Orchestrator Web console.
- E.It is used by the IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator server for system initiated actions.

**Correct:A C**

**17.When adding a storage volume to a host server which three options are valid? (Choose three.)**

- A.Storage Volume
- B.Storage Manager
- C.Storage Container
- D.Storage Subsystem
- E.Storage Area Network
- F.Storage Channel Adaptor

**Correct:A B D**

**18.Where are the deployment engine log files located?**

- A.\$TIO\_LOGS/de
- B.\$TIO\_LOGS/deploymentengine
- C.\$TIO\_HOME/deploymentengine
- D.\$TIO\_HOME/logs/deploymentengine

**Correct:B**

**19.What is the default Distinguished Name (DN) for the IBM Tivoli Directory Server administrator?**

- A.cn=root
- B.cn=tioldap

C.dn=tioldap

D.cn=tioadmin

**Correct:A**

**20.Where are newly discovered servers found in the IBM Tivoli Provisioning Manager/IBM Tivoli Intelligent Orchestrator V3.1 user interface?**

A.Inventory-> Servers

B.Configuration-> Discovery-> Servers

C.Inventory-> Discovered -> Discovered Servers

D.Configuration-> Discovered -> Discovered Servers

**Correct:C**
