**Exam : CTFL\_Foundation**

**Title : Certified Tester - Foundation  
Level (Syllabus 2011)**

**Version : DEMO**

1.Which of the following is NOT a valid objective of testing?

- A. Preventing defects from being introduced into the code
- B. Investigating and fixing defects in the software under test
- C. Gaining confidence that the system is fit-for-purpose
- D. Providing information for stakeholders' decision making

**Answer: D**

2.During which stage of the fundamental test process is the testability of requirements evaluated?

- A. Test Implementation and Execution
- B. Test Planning and Control
- C. Evaluating Exit Criteria and Reporting
- D. Test Analysis and Design

**Answer: D**

3.A new testing tool has been selected for an organization and a pilot project has successfully completed. The next step is to deploy the tool within the organization.

What is a key success factor in tool deployment?

- A. Estimate a cost-benefit ratio based on a firm business case.
- B. Determine whether benefits will be achieved at reasonable cost.
- C. Provide support for the test team using the tool.
- D. Assessment of organizational maturity, strengths and weaknesses.

**Answer: A**

4.Which of the following represents good testing practice for testers, irrespective of the software lifecycle model used?

- A. They should start test analysis when the corresponding development level is complete.
- B. They should be involved in reviewing requirements or user stories as soon as drafts are available.
- C. They should ensure that the same test objectives apply to each test level.
- D. They should minimize the ratio of development levels to test levels to reduce project costs.

**Answer: D**

5.A system is being enhanced to simplify screen navigation for users.

Which of the following does NOT reflect structural testing?

- A. To test all paths that users could take through the screen menu system
- B. To ensure that 100% decision testing is achieved for each system component
- C. To test all branches of component calls within the application call graph
- D. To ensure that users can navigate to all fields on the screen

**Answer: C**
