Exam : NSE5_FAZ 7.0

**Title : Fortinet NSE 5 -
FortiAnalyzer 7.0**

Version : DEMO

1. In which order are firewall policies processed on a FortiGate unit?

- A. From top to bottom, according with their sequence number.
- B. From top to bottom, according with their policy ID number.
- C. Based on best match.
- D. Based on the priority value.

Answer: A

2. What logging options are supported on a FortiGate unit? (Choose two.)

- A. LDAP
- B. Syslog
- C. FortiAnalyzer
- D. SNMP

Answer: BC

3. What is valid reason for using session based authentication instead of IP based authentication in a FortiGate web proxy solution?

- A. Users are required to manually enter their credentials each time they connect to a different web site.
- B. Proxy users are authenticated via FSSO.
- C. There are multiple users sharing the same IP address.
- D. Proxy users are authenticated via RADIUS.

Answer: C

4. With FSSO DC-agent mode, a domain user could authenticate either against the domain controller running the collector agent and domain controller agent, or a domain controller running only the domain controller agent.

If you attempt to authenticate with a domain controller running only the domain controller agent, which statements are correct? (Choose two.)

- A. The login event is sent to a collector agent by the DC agent.
- B. the login event is sent to the FortiGate by the DC agent.
- C. The domain collector agent may perform a DNS lookup for the authenticated client's IP address.
- D. The user cannot be authenticated with the FortiGate in this manner because each domain controller agent requires a dedicated collector agent.

Answer: CD

5. Regarding the use of web-only mode SSL VPN, which statement is correct?

- A. It support SSL version 3 only.
- B. It requires a Fortinet-supplied plug-in on the web client.
- C. It requires the user to have a web browser that supports 64-bit cipher length.
- D. The JAVA run-time environment must be installed on the client.

Answer: C
